With HVision, the future of training is intelligent

The artificial intelligence of HVision **analyzes every movement in real-time**, providing accurate and instantaneous feedback on the **correct execution of exercises**. The system is capable of:

Evaluating performance: providing valuable data on workout intensity and performance level, allowing you to monitor your progress and achieve your goals faster.

Setting up the correct training program: based on your physical characteristics and goals, HVision creates a personalized training plan that adapts to your needs and helps you get the most out of every session.

Guiding you through the correct execution of exercises, ensuring a **safe and risk-free workout**.

Horizon Glass: Training becomes an **immersive and enjoyable experience**.

With Horizon Glass, **training becomes stimulating and enjoyable**. Thanks to the intuitive interface and real-time evaluation, you can exercise safely and effectively.

Imagine training with a device that guides you through the correct execution of exercises and helps improve your performance, offering a wide range of programs, including:

Functional Training

Yoga

Pilates

Meditation

AB Horizon: bold growth and a future full of innovations.

With the launch of Horizon Glass, AB Horizon continues its expansion in the fitness industry and reaffirms its position as an **innovative company**.

AB Horizon has expanded its horizons, counting dealers in countries like **France, Spain, and the United Arab Emirates**. The success of AB Horizon has not gone unnoticed: **private clients, prestigious shipyards, exclusive hotels and wellness centers choose AB Horizon products for their quality and innovation**.

The company is already working on new ambitious projects, including collaboration with athletic trainer **Edoardo Bendinelli** and the **University of Pavia** for training applied to **motorsport**.

With its new approach to fitness training, AB Horizon has opened a window to the future of fitness. Brescia proudly reaffirms itself as a beacon of innovation and global success.
